

Planting Diary 3

By Jack

2018.11. Nice Weekend

I'm really happy for OPCPM Farm products being at my home, I own all kinds of OPCOM Farm products which may plant all types of plants. I set OPCOM Farm products in each floor of my house in accordance with characteristics of my rooms. Therefore, all types of plants planted in my home everywhere, I find my home looks like an exuberant green forest, and health is integrated into my life gradually!

I cut some basil for my wife Sherry to cook specialty three-cups chicken at night.

Guess Who's Coming to Dinner

I enjoy plants planted around my kitchen while eating the dinner with my wife Sherry at the same time. My dinner is too delicious to lose weight, if you want delicious foods with fresh vegetables or fruits, I suggest you can do it by yourself, you just use OPCOM Farm products for planting all types of plants, and you will find planting by yourself is easy!!!!
