

OPCOM® is Showcasing world's first Fully automatic Hydroponic growing system with the Innovations for connected home, Smart and Healthy Lifestyles at the Las Vegas Market.

Booth:#4607 in Las Vegas Market at World Market Center Pavilion One, July 30 - August 18, 2017.

The Las Vegas Market - **OPCOM**®Link USA will be showcasing US households new products promoting smart and healthy lifestyles that utilize **OPCOM**'s innovations in hydroponic indoor gardening system.

Products include:

- **OPCOM**®Farm's GrowBox2 and GrowWall2 advanced indoor gardening systems which enable easy gardening from individual to commercial scale without the limitations of outdoor weather, insects and diseases. Make your grow uninterrupted all year round. Thanks to our dedicated product development team, we created the multi grow system, you are able to expand and link all your **OPCOM**®Farm products as many as you please.
- **OPCOM**®Farm's GrowTank provides perfect solutions for those in favor of larger plants such as tomato, cucumber, melon and other recreational plants. Thanks to our dedicated product development team, we created the multi grow system, you are able to expand and link all your **OPCOM**®Farm products as many as you please.
- GrowFrame, a compact and decorative product for indoor gardening.
